**Total: 89 species**

Kuankuoshui National Nature Reserve, Guizhou Province, southwestern China: 28–06–19 N, 107–02–14 E; 650–1762 m a.s.l.

\* I used species names, taxonomy and listed taxa following the Handbook of the Birds of the World; the species rank numbers are in the format "Volume-Plate-Species"

The standard field guide "MacKinnon J. & Phillips K. 2000: A Field Guide to the Birds of China, Oxford University Press, USA" used some species names that are outdated, namely:

Cecropis daurica was treated as Hirundo daurica  
Cuculus sparverioides was treated as Hierococcyx sparverioides  
Dryonastes berthemyi was treated as Garrulax poecilorhynchus  
Ixos mccllellandii was treated as Hypsipetes mccllellandii  
Leucodioptron canorum was treated as Garrulax canorus  
Lioparus chrysotis was treated as Alcippe chrysotis  
Malacias desgodinsi was treated as Heterophasia melanoleuca  
Milvus migrans lineatus was treated as Milvus lineatus  
Myiomela leucura was treated as Cinclidium leucurum  
Periparus venustulus was treated as Parus venustulus  
Pomatorhinus gravivox was treated as Pomatorhinus erythrocnemis  
Seicercus affinis was treated as Seicercus burkii  
Siva cyanouroptera was treated as Minla cyanouroptera  
Stachyridopsis ruficeps was treated as Stachyris ruficeps  
Trochalopteron milnei was treated as Garrulax milnei
